TEACHER GUIDE

ANSWERS AND MARKS

GRADE 10 · INFORMATION AND COMMUNICATION TECHNOLOGY

UNIT 8
Electronic Presentations

! FOR THE TEACHER ONLY

This booklet has the answers to every exercise in the Unit 8 Student Workbook, in the same order. The exercise letters match the workbook.

i WHAT IS IN THIS GUIDE

- **Marks and pacing** - every exercise and its marks
- **Class marks record** - one page to copy for each class
- **Practicals at a glance** - what to check in Practicals 1 - 4, materials, a quiz, a practical test
- **Answers** - chapters 1 to 4, in the same order as the workbook
- **Unit 8 Test** - the marking scheme and the common mistakes
- **Extra** - textbook links, homework ideas and teaching tips

★ BEFORE THE FIRST LESSON

- ☐ MS PowerPoint or LibreOffice Impress opens on every computer.
- ☐ The multimedia projector and the speakers work with the teacher's computer.
- ☐ A shared folder has pictures, a short sound clip and a short video clip.

"Students remember what they present. Let them stand up and show their slides."

- THE KING OF ICT

TEACHER GUIDE

Marks and Pacing

You decide how much class time each part needs

Chapter	Exercise	Marks
Chapter 1	A Which projector?	8
	B True or false	6
	C Choose the correct answer	5
	D Fill in the blanks	8
	E Spot the mistakes	6
Chapter 2	A Choose the correct answer	6
	B PowerPoint, Impress or both?	8
	C Match them	6
	D Which view?	6
	E Label the PowerPoint window	8
	F Open source or proprietary?	5
Chapter 3	A Complete the menu paths	8
	B Put the steps in order	6
	C Read the Page Setup window	7
	D Name the layouts	8
	E Fill in the blanks	8
Chapter 4	A Which option?	6
	B Handouts	4
	C Plan a presentation	8
	D Choose the correct answer	5
	E Transition or animation?	8
	F Read the animation timing	4
	G Crossword	10
End	Unit 8 Test	40
TOTAL		**194**

! SUGGESTED SHAPE OF ONE CHAPTER

READ	Teach the chapter pages. Students read with you and underline the key words.
DO	The practical tasks on real computers, in pairs.
WRITE	The written exercises. Walk around and help.
MARK	Mark the work together. Fill the tick boxes.

★ TEACHING TIP

- Show one good and one poor presentation on the projector. Let the class find the problems first.

TEACHER GUIDE

Practicals at a Glance

Textbook activities on pages 248 - 267

Practical	Students do	Check that ...
1 (p. 248)	watch two presentations and list the points of an effective presentation	the list has the features of 8.3: lines, font size, grammar, images, colours, one video, target group, format and resolution, sharing.
2 (p. 249)	find the parts of the PowerPoint and Impress windows; the four views; a web search on other software and AI tools	students point to all 11 / 9 parts; F5 starts the show from slide 1 and Esc ends it.
3 (p. 261)	MyFirstPresentation: a title slide, save, open, a background, a shape, a clip art and a picture	the file is saved with a clear name; pictures are resized with the corner handles.
4 (pp. 261 - 267)	a video slide and a sound slide; transitions and custom animations; a 3-slide handout; a Green Computing presentation	one video or sound on a slide; Start, Duration and Delay are set; the handout has lines for notes; the Green Computing slides have the seven points of 8.17.

SAFETY AND MATERIALS

- A multimedia projector and speakers for Practicals 1 and 4. Only you connect them to the computer.
- A shared folder with a few pictures, one short sound clip and one short video clip for Practicals 3 and 4.
- MS PowerPoint or LibreOffice Impress on every computer. The textbook shows PowerPoint 2010 and LibreOffice 4.1; newer versions have the same tools in nearly the same places.
- Paper for one sample handout per group (Practical 4), or print to a PDF file to save paper.

Textbook links

Workbook	Textbook pages	Activities
Chapter 1 - Presentations and good presentations	245 - 248	248
Chapter 2 - Presentation software	249 - 255	249
Chapter 3 - Making a presentation	255 - 261	261
Chapter 4 - Transitions, animations, media, printing	262 - 267	264 - 267
Unit 8 in One Page	268 (summary)	-

TEACHING TIPS

- Stand at the back of the room with the class. Can they read 18-point text? Then show 32 points.
- Count the lines of a slide together: 6 - 9 lines is the textbook rule.

? QUICK ORAL QUIZ - START OR END A LESSON WITH IT

Ask the class ...	Answer
1. What is a presentation?	**Showing information to an audience in an organised way**
2. Which projector uses transparent sheets?	**The OHP**
3. How many lines should a slide have?	**6 - 9**
4. Which font size should a slide have?	**32 points or more**
5. Name one open source presentation software.	**LibreOffice Impress**
6. Which key starts the show from the first slide?	**F5**
7. Which view changes the order of the slides?	**Slide Sorter View**
8. What is the box "Click to add title"?	**A Place Holder**
9. What is the ratio of a Widescreen slide?	**16:9**
10. Reduce, reuse, recycle are the principles of ...	**green computing**

> PRACTICAL TEST - 30 MINUTES, 20 MARKS (OPTIONAL)

Use the computers of Practicals 3 and 4. Give the marks while the student shows the slide show.

Step	The student must ...	Marks
1	Start MS PowerPoint (or LibreOffice Impress). Set the slide size to **Widescreen (16:9)**.	2
2	Make a **Title Slide**: Sri Lanka: The Pearl of the Indian Ocean, and a sub-title (textbook page 266).	3
3	Add a **Title and Content** slide with 6 - 9 lines about a place in Sri Lanka, font 32 points or more.	4
4	Insert a picture and resize it with the corner handles.	3
5	Add a transition to every slide and one animation.	4
6	Save it as **Test - your name** and run the slide show with F5.	4
	Total	**20**

★ TEACHING TIPS

- Teach the short rule "one slide, one idea, one video". It holds most of the advice of 8.3.
- Not enough computers? Demonstrate on the projector, then let pairs take turns at the mouse.
- Teach the PowerPoint and Impress windows side by side: many parts are the same, a few have other names.
- Keep a big poster of the 11 parts of the PowerPoint window on the wall during the unit.
- Point to a part of the window and let the class say its name together. Fast revision for labelling.
- Let students press F5 and Esc many times. They must know how to start and stop a slide show.

ANSWERS

Chapter 1

Presentations and good presentations

A Which projector?

8 marks

It ...	OHP	Slide projector	Multimedia projector
It shows material on transparent sheets.	☑	☐	☐
It shows photographs or prepared slides.	☐	☑	☐
Its source is a computer or a flash memory.	☐	☐	☑
It shows videos, animations and colourful text.	☐	☐	☑
It is used only in fields like history and art.	☐	☑	☐
It is very rare nowadays.	☑	☐	☐
You can write on it as you present.	☑	☐	☐
It needs extra work to prepare visual frames.	☐	☑	☐

1 mark each. All the facts are in the comparison table of textbook page 246.

B True or false

6 marks

1. **T - People make presentations to share their views, opinions, ideas and knowledge.**
2. **F - A multimedia projector has low compatibility.**
3. **T - The distance between the screen and the audience helps to decide the font size.**
4. **F - Dark red on the whole slide is comfortable for the viewers' eyes.**
5. **T - Red can be used for some words or numbers that need attention.**
6. **F - It is ideal to use three or four videos on each slide.**

C Choose the correct answer

5 marks

1. (a) OHP	**2.** (c) Multimedia projector
3. (d) 32 points	**4.** (a) the sounds overlap
5. (b) multimedia presentation	

TEACHING TIP

- In Slide Sorter View, let students drag slides into a new order. They remember the view better.

D Fill in the blanks

8 marks

1. audience	**2.** non-verbal	**3.** flash	**4.** slides
5. 6 - 9	**6.** 32	**7.** two	**8.** cloud

1 mark each. The extra words are **three** and **12**.

E Spot the mistakes

6 marks

1. fifteen lines → **6 - 9 lines on a slide**	**2.** 16 points → **32 points or more**
3. four pictures → **not more than two pictures**	**4.** three video clips → **one animation or video on a slide**
5. dark red → **no dark red on the whole slide; good contrast**	**6.** did not check the spelling → **double check the grammar and spelling**

1 mark for each mistake with its correct rule (half a mark if only the mistake is underlined).

TEACHING TIPS

- Put a few pictures, one short sound and one short video in a shared folder. Nobody needs unknown websites.
- Insist on saving with a clear name at the start of every practical, e.g. MyFirstPresentation - Kamala.
- Let students drag the small handles of a shape and a picture to expand and shrink them (Figure 8.6.8).
- Remind students that clip art in LibreOffice Impress is in the Gallery (Tools menu).
- The textbook paths are for LibreOffice 4.1. Newer versions start the show with Slide Show, Start from First Slide.
- Let students choose a layout before they type. The slides stay neat.
- Discuss contrast: dark text on a light background, or light text on a dark background.

ANSWERS

Chapter 2

Presentation software

A Choose the correct answer

6 marks

1. (c) LibreOffice Impress	**2.** (b) Document Foundation
3. (b) Ribbon	**4.** (c) F5
5. (c) 5	**6.** (a) Gamma

B PowerPoint, Impress or both?

8 marks

It is in ...	MS PowerPoint	LibreOffice Impress	Both
Ribbon	☑	☐	☐
Menu Bar	☐	☑	☐
Quick Access Tool Bar	☑	☐	☐
Standard Tool Bar	☐	☑	☐
Slide Pane	☐	☐	☑
Drawing Tool Bar	☐	☑	☐
Status Bar	☐	☐	☑
Zoom Control	☐	☐	☑

1 mark each. Ribbon and Quick Access Tool Bar: PowerPoint (Figure 8.4.1). Menu Bar, Standard and Drawing Tool Bars: Impress (Figure 8.5.1).

C Match them

6 marks

1. Quick Access Tool Bar → C	**2.** Title Bar → E	**3.** Slide Pane → A
4. Notes Pane → F	**5.** Status Bar → D	**6.** Zoom Control → B

D Which view?

6 marks

You want to ...	Normal	Slide Sorter	Reading	Slide Show
create and edit a slide.	☑	☐	☐	☐
change the order of the slides.	☐	☑	☐	☐
show the presentation to the audience on the full screen.	☐	☐	☐	☑
see all the slides together as mini slides.	☐	☑	☐	☐
read the texts clearly, and leave with the Esc key.	☐	☐	☑	☐
start from the first slide with the F5 key.	☐	☐	☐	☑

E Label the PowerPoint window

8 marks

1. Ribbon	**2.** Slide Pane	**3.** Title Bar	**4.** Notes Pane
5. Quick Access Tool Bar	**6.** Status Bar	**7.** Task Pane	**8.** Zoom Control

1 mark each. Accept small spelling slips such as "Tool bar" for "Tool Bar".

F Open source or proprietary?

5 marks

1. **Apple Keynote: Apple Inc. - Proprietary**
2. **Corel Presentation: Corel Corporation - Proprietary**
3. **LibreOffice Impress: Document Foundation - Open source**
4. **Microsoft PowerPoint: Microsoft Corporation - Proprietary**
5. **OpenOffice.org Impress: Apache Corp. - Open source**

Half a mark for each organization and half a mark for each tick. The textbook writes "Document Foundation" (The Document Foundation) and "Apache Corp." (the Apache Software Foundation): accept both forms.

ANSWERS

Chapter 3

Making a presentation

A Complete the menu paths

8 marks

1. **Set the slide size, PowerPoint: Design → Page Setup**
2. **Set the slide size, Impress: Format → Page**
3. **Choose a layout or theme, Impress: Format → Slide Layout → Layout**
4. **Start the slide show, PowerPoint: Slide Show → From Beginning (or F5)**
5. **Add a slide background, PowerPoint: Design → Background Styles**
6. **Add a slide background, Impress: Format → Page → Background**
7. **Insert clip art, Impress: Tools → Gallery, drag to the slide**
8. **Insert a picture, PowerPoint: Insert → Picture**

1 mark each. Accept the path without the arrows if the order is right (Design, Page Setup).

B Put the steps in order

6 marks

1. 4	**2.** 1	**3.** 6	**4.** 2	**5.** 5	**6.** 3

The numbers as they are written in the Order column, from the top. The right order: 1 Start MS PowerPoint; 2 Choose the Title Slide layout (Home, Layout); 3 Click "Click to add title" and type the title; 4 Click "Click to add subtitle" and type the sub-title; 5 Click File, Save As and choose My Documents; 6 Type the file name and click Save. 1 mark each.

TEACHING TIPS

- Put three videos on one slide and play it once. The overlapping sounds teach the rule at once.
- Ask: who is the target group? A talk for Grade 6 and a talk for parents are different.
- Use the crossword of Chapter 4 and the word list as revision at the end of the unit.

C Read the Page Setup window

7 marks

1. **Slides sized for: On-screen Show (4:3)**
2. **Width: 25.4 cm**
3. **Height: 19.05 cm**
4. **Orientation of the slides: Landscape**
5. **Orientation of notes: Portrait**
6. **Show that the width and the height are in the ratio 4 : 3. (2 marks)**
   25.4 / 4 = 6.35 and 19.05 / 3 = 6.35, so 25.4 : 19.05 = 4 : 3 (1 mark for each division).

D Name the layouts

8 marks

1. Two Content	**2.** Title Slide	**3.** Blank	**4.** Comparison
5. Title and Content	**6.** Picture with Caption	**7.** Section Header	**8.** Title Only

1 mark each. The extra name is **Content with Caption**.

E Fill in the blanks

8 marks

1. Widescreen	**2.** Page Setup	**3.** Place Holder	**4.** Text Box
5. Reuse	**6.** handles	**7.** Gallery	**8.** Album

1 mark each. The extra words are **Landscape** and **Notes Pane**.

TEACHING TIPS

- Print one handout with 3 slides on a page and pass it round. Then talk about saving paper.
- Encourage students to practise their talk once before they present it.

ANSWERS

Chapter 4

Transitions, animations, media and printing

A Which option?

6 marks

1. Media from File	**2.** Record Audio	**3.** Clip Art Audio
4. Video from File	**5.** Video from Web Site	**6.** Movie and Sound

1 mark each. The extra option is **Clip Art Video**. The textbook writes "Media from File" for a sound file (in PowerPoint 2010 it is Audio from File).

B Handouts

4 marks

1. **Which menu path prints handouts? File → Print**
2. **How many slides are printed on one page with "6 Slides Horizontal"? 6**
3. **Which handout gives lines to write notes beside the slides? 3 Slides**
4. **Why are handouts given to the audience? They can note down important notes beside the slides**

C Plan a presentation

8 marks

A model plan. Title: **Green Computing**. Slide 1: the title with an animation and one picture. Slide 2: what green computing is (6 - 9 lines). Slide 3: reduce, reuse, recycle - green use, disposal, design and manufacturing, with one video or sound clip. Slide 4: a conclusion, with buttons to move between the slides.

2 marks for each slide: 1 mark for suitable content, 1 mark for following the rules of 8.3 (a few lines, not more than two pictures, one video).

D Choose the correct answer

5 marks

1. (b) Transition tab	**2.** (d) Reuse
3. (a) Movie and Sound	**4.** (a) without a click
5. (a) reduce, reuse, recycle	

E Transition or animation?

8 marks

It is about ...	Transition	Animation
The effect when you move from one slide to the next.	☑	☐
A picture flies in on a slide.	☐	☑
Apply to All Slides gives every slide change the same effect.	☑	☐
Entrance, Emphasis, Exit and Motion Paths.	☐	☑
Modify Transition → Speed	☑	☐
Start: On Click, Duration: 01.00, Delay: 00.00	☐	☑
Advanced Slide: On mouse Click or Automatically After	☑	☐
Custom Animation → Modify effect → Add	☐	☑

TEACHING TIPS

- Link green computing to the school: switch off the projector and the computers after the lesson.
- Show the Page Setup numbers: 25.4 cm by 19.05 cm is 4:3. A nice link to Mathematics.

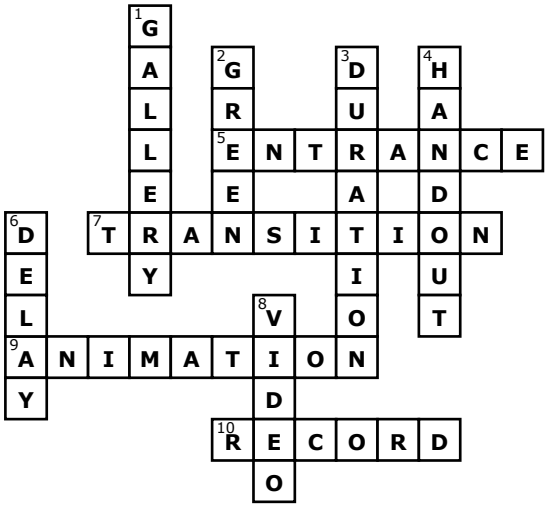

F Read the animation timing

4 marks

1. **It starts: On Click - when you click the mouse**
2. **Duration: 01.00**
3. **Delay: 00.00 - no waiting**
4. **Buttons that change the order: Move Earlier and Move Later (Reorder Animation)**

G Crossword

10 marks

Across: 5 ENTRANCE, 7 TRANSITION, 9 ANIMATION, 10 RECORD

Down: 1 GALLERY, 2 GREEN, 3 DURATION, 4 HANDOUT, 6 DELAY, 8 VIDEO

MARKING SCHEME

Unit 8 Test

Total 40 marks

1 Choose the correct answer

8 marks (1 each)

1. (b) an audience	**2.** (a) Gamma
3. (b) Notes Pane	**4.** (c) F5
5. (c) 5 components	**6.** (a) Start, Duration, Delay
7. (a) Entrance	**8.** (b) B only

2 Fill in the blanks

8 marks (1 each)

1. presentation	**2.** tabs	**3.** Status	**4.** Place Holder
5. Text Box	**6.** handles	**7.** Gallery	**8.** multimedia

TIP: Let groups present their Green Computing slides. The class checks them with the rules of 8.3.

3 Name the pictures

8 marks (1 each)

1. Slide Sorter View	**2.** Slide Show	**3.** Normal View	**4.** Reading View
5. Title Only	**6.** Two Content	**7.** Title Slide	**8.** Picture with Caption

Cards 1 - 4 are view buttons (Figure 8.4.3), cards 5 - 8 are Office Theme layouts (Figure 8.6.3).

4 Answer these

16 marks

1. Write two differences between an Over Head Projector and a multimedia projector. (2 marks)

Any two (1 mark each): OHP - writing or printed material on transparent sheets; multimedia projector - a computer, flash memory or other devices. OHP - colours are limited; multimedia - high-resolution pictures, videos, animations. OHP - low compatibility; multimedia - high. OHP - very rare nowadays; multimedia - very popular. OHP - high processing time; multimedia - low.

2. Write four characteristics of a good quality presentation. (4 marks)

Any four (1 mark each): 6 - 9 lines on a slide; font size 32 points or more; correct grammar, spelling and language; not more than two images, drawings, tables or graphs on a slide; careful use of colours (no dark red everywhere, good contrast); one animation or video on a slide; pay attention to the target group; the right digital format and resolution; ease of sharing.

3. Name one open source and one proprietary presentation software, and the organization that develops each one. (2 marks)

Open source: LibreOffice Impress - Document Foundation (or OpenOffice.org Impress - Apache Corp.). Proprietary: Microsoft PowerPoint - Microsoft Corporation (or Apple Keynote - Apple Inc., Corel Presentation - Corel Corporation). Half a mark for each name.

4. Write the menu path to set the slide size in MS PowerPoint and in LibreOffice Impress. (2 marks)

MS PowerPoint: Design → Page Setup (1 mark). LibreOffice Impress: Format → Page (1 mark).

5. What is the difference between a slide transition and an animation? (2 marks)

A slide transition is the effect when one slide changes to the next (1 mark). An animation is an effect given to a text, shape, picture or other object on a slide (1 mark).

6. Name two options you get with Insert, Media, Video in MS PowerPoint. (2 marks)

Any two: Video from File, Video from Web Site, Clip Art Video (1 mark each).

TIP: Give a five-question oral quiz at the start of each lesson. Use the list on the practicals page.

7. Write two things you can choose in the print window when you print a presentation. (2 marks)

Any two: the printer; all slides, the selected slides or slides by their numbers; the number of copies; the size of the print on the paper; handouts (1 mark each).

WHAT STUDENTS USUALLY GET WRONG

- They mix up the OHP (transparent sheets) and the slide projector (slides with images).
- They think more effects make a better presentation. One animation or video on a slide; not more than two pictures.
- They give a slide the font size of a letter (12 points). Slides need **32 points or more**.
- They mix up the Ribbon and Tabs (PowerPoint) with the Menu Bar and Standard Tool Bar (Impress).
- They confuse a transition (between two slides) with an animation (an object on a slide).
- They forget that the Notes Pane is never shown to the audience.
- They write a menu path in the wrong order. Teach it as steps: File, then Save As, then the folder.

HOMEWORK AND EXTRA PRACTICE

- Check one presentation (at home or on the web) with the nine features of 8.3. Write what is good and what is poor.
- Draw the PowerPoint window from memory and label its 11 parts.
- Textbook page 266: make a creative presentation on a lesson that is hard to explain on a blackboard, with a suitable layout, a topic and sub-topics.
- Fast learners: with your help, try Google Presentation or an AI tool such as Gamma, and compare it with PowerPoint.

TEACHING TIPS

- Remind students that the Notes Pane is for the presenter only. The audience never sees it.
- O/L papers ask for menu paths. Let students write them with arrows: Design, then Page Setup.
- In the test, students name view buttons and layouts from pictures. Show the real buttons often.
- Students who finish early can add a transition and an animation to every slide, then judge if it is too much.
- Mark the unit test together the next day. Students learn most from the questions they got wrong.
